#### 4. Our Policies on Slavery and Human Trafficking

The DCC *Code of Conduct* sets out our Group’s commitment to acting ethically and with integrity towards our employees and in all our business relationships. Specifically, Section 2 of the Code sets out our commitment to fair employment practices and Section 14 of the Code sets out our commitment to preventing, as far as practicable, slavery and human trafficking in our supply chains.

The DCC Group *Supply Chain Integrity Policy* sets out the approach taken by every business in the DCC Group to ensuring that all the products we sell meet applicable legal and ethical standards, including human rights and minimum labour standards.

In addition, the DCC *Human Rights Policy* sets out DCC’s specific commitment to operate to internationally recognised standards of human rights, including in relation to forced labour, child labour and unsafe working conditions.

These documents are available at <http://www.dcc.ie/responsibility/our-policies>.

Our policy on slavery and human trafficking is set out in Section 1 of this statement.

At DCC Vital, we have established our *Supply Chain Integrity and Anti-Bribery and Corruption Risk Assessment Procedure* and *Code of Practice* to reflect the requirements of these Group

policies. These documents outline the detailed requirements we follow at DCC Vital and which have been integrated into local company procedures. Following independent third party audit, our procedures were updated and significantly improved. In addition, relevant DCC Vital companies participate in the NHS Labour Standards Assurance System including annual third party audits of our Supply Chain Integrity Procedures. Our companies also participate in customer evaluations of our compliance to labours standard and modern slavery requirements.

#### **5. Due Diligence and Assessing and Managing Risk**

As part of our compliance with the policies and procedures referred to above, we take the following steps:

- Assess potential risk areas in our supply chains, including where partners or potential partners are located in countries where slavery or human trafficking are a particular risk. The risk assessment considers the industry or geographies in which they operate. Geographic risk, for this purpose, is informed by relevant independent indices such as the Corruption Perceptions Index or Global Slavery Index;
- Carry out enhanced due diligence on certain partners following this risk assessment. As a DCC Group business, we work mainly with Kroll, a leading supplier of integrity due diligence services, in this area. Where red flags are identified in this due diligence, senior management are involved;
- Mitigate the risk of slavery and human trafficking occurring in our supply chains, including by reviewing, where necessary, the controls that our partners have in place, asking partners to confirm that they meet certain standards and carrying out other suitable checks including audits.;
- Monitor potential risk areas in our supply chains on a periodic basis.

Steps we have taken to enhance our process for identification of slavery and human trafficking risks in our supply chain are set out below:

- In the period, DCC Vital have completed the assessment of existing and extended scope third parties in line with our updated *Supply Chain Integrity and Anti-Bribery and Corruption Risk Assessment Procedure*. We have continued to improve internal processes to optimise efficiency and effectiveness including developments to our online due diligence portal. We have conducted due diligence to onboard partners of acquired businesses according to our procedures.

#### **6. Assurance and Key Performance Indicators**

Responsibility for ensuring that our policies and procedures are adequate and are adhered to in all areas of our activities rests with the senior management team of DCC Vital. Regular updates are provided to the DCC Vital Compliance Committee and DCC Vital Leadership Team for review and feedback. Our policies and procedures are audited periodically by internal auditors and by third parties to assure compliance and to identify areas for improvement. These audits address supply chain integrity risks including the abuse of human rights and employment rights. Further to thirdparty audit, significant updates to our policies and procedures have been adopted which includes extending the scope to include additional third parties e.g. shipping third parties. We have developed our online due diligence portal to enable metrics and monitoring of our activity and performance.

We report on compliance with the DCC Group *Code of Conduct* and *Supply Chain Integrity Policy* every six months.

#### **7. Training & Awareness**

In the period covered by this statement over 125 employees in our business completed training on our Code of Conduct which covered the protection of human rights, including the prevention of slavery. This training is rolled out regularly to all employees.

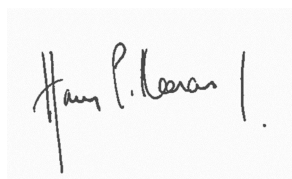

We also provide training to relevant employees on supply chain risks, including the risk of slavery and human trafficking in accordance with our procedure requirements. A comprehensive bespoke training programme is in place and is carried out periodically across the business including employees from Commercial, Finance, Procurement, Quality Departments plus Senior Management and Compliance Committee members.

Our participation in industry associations and our dealings with third party partners also provides DCC Vital with information regarding slavery and human trafficking risks in the industries where DCC Vital is active, and best practice in avoiding them.
